

CIT2011 Individual

Assignment #2

Documentation

Student Name:Shante' Smith

Student ID #: 1920101

Module Name: Web Programming

Module Code: CIT2011

Assignment Title: Individual Assignment #2

Class Day / Time: Wednesday 6Pm

Question 1: Business Profile & Brand Identity

a) Business Description:

Nyante Luxe Nails is a premium e-commerce brand launched in January 2026, specializing in salon-quality, custom-fit press-on nails. Designed for the modern individual seeking luxury without the salon time or damage, Nyante Luxe Nails combines high-end artistry with reusable durability, delivering a flawless luxury manicure directly to the client's door.

b) Logo Concept:

The visual concept for Nyante Luxe Nails focuses on modern sophistication. It utilizes clean, high-fashion typography featuring sharp, elegant lines for **Nyante** paired with a sleek, minimalist serif font for **Luxe Nails**, embodying premium craftsmanship and exclusive beauty.

c) Slogan:

"Luxury at your fingertips."

d) Mission Statement:

To redefine the press-on nail industry by delivering accessible, high-fashion, and reusable luxury manicures that empower clients to express their unique style instantly.

e) Vision Statement:

To establish Nyante Luxe Nails as the premier global digital storefront for premium, damage-free custom nail artistry.

Question 2: Target Audience Description

The primary target audience for Nyante Luxe Nails consists of fashion-conscious individuals, beauty enthusiasts, and busy professionals aged 16–40 who demand high-quality aesthetics but value convenience. This includes professionals who need to look polished but lack the time for long salon appointments, students who want trendy, interchangeable styles for events, and anyone looking for a premium, non-damaging alternative to traditional acrylics.

Question 3: Color Palette Justification & Psychology

Your choice of colors directly influences consumer behavior and brand perception on the web:

- **Blush Pink (#E8C5C8):** In marketing psychology, pink represents beauty, modern grooming, and approachable luxury. It establishes an immediate emotional connection with cosmetics consumers and sets a chic, inviting tone.

- **Charcoal Black (#2B2D42):** Used primarily for structural text, layouts, and grounding accents. Deep grays and blacks evoke sophistication, high-end authority, and luxury, elevating the brand from a standard beauty store to a "Luxe" experience.
- **Soft Off-White (#FAFAFA):** Used as the primary canvas background. Clean, non-stark white spaces prevent cognitive fatigue, increase visual scannability, and ensure that the vivid colors and details of the Nyante Luxe Nails product photos stand out sharply.
-

Question 4: Project Storyboard & Sitemap

a) Website Sitemap (Architecture):

b) Wireframe & Descriptions:

- **Home Page (index.html):** Features a full-width immersive grid hero image highlighting Nyante Luxe Nails' latest collections, with a bold brand overlay text block and an actionable "Shop the Collection" call-to-action button centered on the screen.

- **Products Page (products.html):** Utilizes a dynamic split view layout. The left 65% displays a responsive 3-column CSS product grid displaying item image containers, pricing variables, and add buttons for different nail sets. The right 35% holds a stationary sticky invoice widget displaying structural transaction values.

- **Login Page (login.html):** Implements a side-by-side split screen structure dividing standard form blocks evenly; the left side handles customer credential entry inputs, while the right hosts registration text fields for new clients.

The image shows a web form for 'Nyante Luxe Nails' with a side-by-side split screen layout. The top navigation bar is pink and contains the site logo and links for 'Home', 'Shop', 'Login', and 'About'. The main content area is divided into two columns. The left column, titled 'LOG IN', contains two text input fields labeled 'Username' and 'Password', and a red button labeled 'Login'. The right column, titled 'REGISTER', contains five text input fields labeled 'Full Name', 'Date of Birth', 'Email Address', 'Username', and 'Password', and a red button labeled 'Register'.

- **About Us Page (about.html):** Designed as a single elegant central reading layout column, highlighting critical student documentation fields inside an accented callout container box and utilizing a custom-styled mail link footer element for business inquiries.

Question 5: Free Hosting & Deployment

- **Live Production Link:** <https://shanteffff.github.io/Nyante-Luxe-Nails/about.html>
